

AIXLIGHT MOD

recessed fitting, double-headed, QR111, silver-grey, max. 50W, multi-directional

The low-voltage wall and ceiling recessed light, AIXLIGHT MOD, has a multi-directional tiltable lamp holder and is designed for the use of QR111 low-voltage halogen lamps. The inside of the luminaire's housing made of aluminium and steel has been painted black giving the observer an image of a free-floating lamp head. The silver-grey frame rounds off the looks of the AIXLIGHT MOD. A suitable 12V AC transformer is needed to operate the luminaire.
