

AIXLIGHT 2

recessed fitting, double-headed, QR-LP111, chrome/black, max. 100W

The low-voltage recessed ceiling light, AIXLIGHT 2, has multi-directional tiltable lamp holders and is designed to use low-voltage QR111 halogen lamps. The inside of the luminaire's housing made of aluminium and steel has been painted black giving the observer an image of a free-floating lamp head. The chrome-plated frame rounds off the appearance of the AIXLIGHT 2. A suitable 12V AC transformer is needed to operate the luminaire.
