

RADIO OUTDOOR MOTION SENSOR

IP64

The wireless SLV Control outdoor motion sensor can be placed everywhere outdoors and indoors, without wiring or high voltage connection, because the transmitter is battery powered. When motion is detected, the wireless motion sensor automatically activates one or more SLV Control receivers. After a little while, the light or device connected to the receiver is automatically turned off again. This switch-off delay is programmable (from 5 seconds to 1, 5, 10 minutes). The maximum detection range is 6 meters. The perfect product for your toilet, bathroom, hallway, passage, walk-in closet or storage closet as well as outdoor facilities. The motion sensor is compatible with the SLV Control receiver with the automatic code system. This transmitter sends radio signals at 433.92 Mhz. The signal passes through walls, windows and doors, with an indoor range of up to 30 meters.

TECHNICAL DATA

Item no.:	470809
Primary nominal voltage	Batteriebetrieb ma/V
Nominal voltage	Batteriebetrieb V
Width	8.4 cm
Height	9.0 cm
Depth	9.9 cm
Net weight	0.166 kg
Gross weight	0.209 kg
IP Code	IP 64
Safety class	III
Safety class	III
Color	black
