

## LED STRIP OUTDOOR

24V, 100cm, 48 LED/m, IP55

Rigid LED Profile consisting of SMD LEDs set in synthetic resin in an aluminium profile. The profiles are outfitted with a 10 cm long supply line on each end, for easy operability. Separately available feed and connecting cables can be hooked up to these lines via plug and coupler. Thanks to its IP55 class protection type the profile is suitable for outdoor use. The profile, which is available with a number of different light colours, is connected to electrical supplies via 24V DC power adapter.
